To The Citizens of Bracken County...

When I came to Bracken County in the 1970s as a state trooper Pie Jett was Sheriff and our biggest concerns were alcohol and marijuana use among our young people.

On the rare occasion that you had to use force to arrest someone they usually apologized in court for their behavior and we shook hands and it was over. Court was held in the County Judge's Office on Tuesdays and it took about an hour.

When I would attend post meetings I would tell the troopers who ran up and down the interstate that I was lucky to be assigned to Bracken County because it was like working in Mayberry.

Over the years I worked with many sheriffs. They were all good men just like the three that are running this time.

Unfortunately, times have changed. I still love living in Bracken County and realize how lucky I am to live here with my family. However, we are a long way from Mayberry. Being a good person is no longer enough to perform the duties of sheriff.

We now have the same problems as every other county, just maybe on a smaller scale. The people who break the law are more informed and can do more things on their phone than NASA was doing on a computer the size of a room in the 1960s and 1970s.

Education and experience have never been more important in law enforcement than they are today and Howard Niemeier is the only candidate with the necessary education and experience running for sheriff.

Eight years ago Howard W. Niemeier ran for Sheriff of Bracken County. Howard stated that if elected he would do his best to make our county a safer place for the residents of Bracken County to live, work and play.

Howard hired me as his Chief Deputy and we began working criminal cases his first day in office. Neither of us realized the number of thefts that were occurring in Bracken County or the extent of the prescription pill and heroin problem that existed here.

At Sheriff Niemeier's direction we worked many hours identifying the people responsible for the thefts. We solved numerous burglaries and thefts resulting in the arrests and convictions of the individuals responsible. To address the drug problem Sheriff Niemeier directed us to work sources who at our direction made recorded drug buys which resulted in the arrests of over 40 individuals charged with 120 drug trafficking charges and convictions.

We also created the SALUTE Program which is an anti-drug program taught by the Sheriff and deputies in the first, fifth, seventh and ninth grades in both Bracken County and Augusta Independent Schools.

Who among us would have ever thought that we would be teaching kindergarten and first grade children not to touch the needle they may see on the playground or in the Wal-Mart parking lot. Unfortunately, these are the times we live in and educating our children as to the dangers of drugs and drug addiction is a must.

The Sheriff created the Citizens Police Academy to help educate the citizens of Bracken County as to the problems that exist and the way the Sheriff's Office is addressing them.

If re-elected, I have no doubt that Sheriff Niemeier will continue the drug education and school resource officers in our schools and I believe he will make every effort to keep our communities safe.

One reason we elect our county officials every four years is so that we can replace those who are not doing their jobs. On Tuesday, May 22nd I am going to vote Howard Niemeier for Sheriff because he has done all that he promised to do eight years ago and more and I encourage you to do the same.

Respectfully,
Chief Deputy Robert Scott

**HOWARD W. NIEMEIER
 FOR SHERIFF JUSTIFICATION**

My fellow citizens over the past several months you have heard a lot of information about your candidates for Sheriff. I am asking you to take what you have heard and evaluate it and also consider the following as JUSTIFICATION for RE-ELECTING HOWARD W. NIEMEIER to continue as your Sheriff.

ACCOMPLISHMENTS

- 24 hours/day, 7 days a week availability
- Crime Rate decreased 62%
- Burglaries decreased 91%
- Thefts decreased 80%
- 270 plus drug related charges filed, with 120 plus being for Trafficking
- Increased visibility & patrolling by deputies
- 600% increase in traffic offense charges which assist in battling drug issues
- 20 plus crime prevention programs implemented
- \$227,000 received in grant funds for equipment and personnel costs
- \$98,000 equipment received through the Military Surplus program
- Citizens Police Academy- 108 graduates and 9 classes completed
- Enhanced Training- Crime Scene Investigation, Interviewing, and Firearms and Taser Weapons Instructors
- Enhanced Professionalism- new policy and procedures, deputies average time of service is 16 years. I would put our deputies up against any in State.
- Brought Sheriff's Office and Dispatch Technology into the 21st Century
- Five new Programs in the schools:
 - SALUTE (Students and Law Enforcement United Through Education)
 - SRO (School Resource Officer) Program
 - Shout Out Boxes
 - Child ID Program- approximately 300 kids fingerprinted and photographed
 - K-9 Drug Sweeps

The biggest thing said about the Sheriff's Office during this election is that we are not available. This is not true as there is always someone on duty or available to receive calls. If you look at what we have accomplished, I would argue that if we were never available that we could not have accomplished what we have over the last seven and half years.

It has been 36 years since Bracken County has elected a Sheriff with no law enforcement experience. With our changing society, now is not the time to revert back 36 years in time. Law Enforcement is an essential part of the Sheriff's duties and having experience is critical for this.

I have 36 years of distinguished law enforcement experience, 24 years experience writing grants, 20 years experience working with budget in excess of \$500,000, and 30 years experience supervising Law Enforcement officers. You have now read comments from four of my deputies explaining the importance of experience in this job and endorsing me for Sheriff. These deputies have also stated that they will not work for either of my opponents, which would mean a total dismantling of the Sheriff's Office if I am not re-elected.

I encourage you to look hard at our accomplishments and our combined experience. I believe that the only Choice moving forward and to continue what has been achieved over the past 7 plus years is to RE-ELECT HOWARD W. NIEMEIER SHERIFF.

I AM ASKING FOR YOUR CONTINUED SUPPORT AND VOTE ON MAY 22ND FOR HOWARD W. NIEMEIER FOR BRACKEN COUNTY SHERIFF.

Shine for JESUS!

by Wanda & Tammy Bruce Heller, Minister

Sunday, Mother's Day, was a very beautiful Sunday. We are studying in Luke 11:1-13. Scott Phillips is our teacher. The subject is on "Praying With Confidence". The story taught us how to pray.

Opening prayer was by Jerry Zeigler. Closing prayer was by Greg Perkins.

Today the message, by Bruce Heller, was "How To Be A Great Mother-in-Law". We are in the book of Ruth 3:1-6. Ruth loved her mother-in-law and her mother-in-law always called her daughter.

Pray for the sick, the hurting, and for the families that have lost loved ones, the men & women in our service.

Don't forget Wednesday Refresh at 7 p.m. Come & bring a friend!

GREETINGS FROM ST. JAMES

by Caroline Jefferson

St. James Women's L.I.F.E. Group is hosting their Annual Spring Dinner this Sunday, May 20 at 1:00 p.m. in the Parish Hall. All are invited to attend but asked to bring a side dish, salad, casserole, or dessert to share. Fried chicken, mashed potatoes, gravy, rolls and drinks will be provided by the parish. This meal provides an excellent opportunity to take some time out of our busy lives to gather as a church family and share in the good food, and good company! We read many times in the New Testament that Jesus enjoyed meals with His family and friends and His first miracle occurred at a wedding feast! While we can't promise the physical appearance of Jesus at our dinner, we can promise that He is with us in spirit and hope you can join us!

Mary Ann Cooke is experiencing some serious medical issues and cards would be most appreciated! Well wishes and prayers can be sent to 206 Garrett Avenue, Brooksville. We pray for her and for the many folks on prayer lists in all our churches! May God bless everyone, especially those suffering from physical, mental and spiritual issues!

WILLOW BAPTIST

by Vanessa Ferrell

This Sunday's service began with our children describing their mothers' traits, such as "My mother makes the best..." and "My mother's favorite color is..." Several potted herbs were awarded for the oldest mother, youngest mother, mother with the most children, etc. This was followed by a moving slide show of our mothers, children, and grandmothers.

Pastor Keeton spoke from John 19:25-27, "A Picture of a Mother's Love". The world needs mothers to be there for their children even during the most difficult times. Children also need to care for their mothers, as Jesus cared for His mother in the verses. Finally, God's love is greater than any human love.

If you are looking for a home church, we invite you to visit Willow Baptist. Sunday School for all ages begins at 10:00, morning service is 11:00.

This Friday at 6:00 ladies are invited to learn how to recycle shopping bags into crocheted blankets. These blankets will be donated to a homeless shelter. Those attending should bring scissors, a crochet hook, and shopping bags.

Sunday, May 20, all students, especially those moving from elementary or middle school and those graduating from high school or college, will be recognized during the morning service.

Vacation Bible School is June 10-13, from 6-8 p.m.

Willow Baptist Church will celebrate our 200th anniversary on July 29. We are planning special events to celebrate.

PRESBYTERIAN POTPOURRI

by Les Grooms, pastor Augusta Presbyterian

We had our monthly meeting of the Session (Administrative Board). The business of the church was discussed and action was taken.

Lynn Darnell was liturgist and Susie Hargett led the singing. Phil White read an original poem about Mother's Day. Phil is such a talented poet and we always enjoy his original poems.

Abigail Salee sang a special Mother's Day song. Her grandmother Deborah was with her while she was singing.

During the time of sharing, a number told stories about their mothers.

The youth of the church passed out a special flower to all of the women that were present.

We also sang a congregational hymn "Faith Of Our Mothers".

My Mother's Day message was about Timothy's Mother Eunice and his grandmother Lois. Apparently they had a great influence on Timothy's life. Most of us have had a mother or grandmother who have tried to guide us in the right direction.

I understand that the post office has been collecting foods for use in the Ministerial Food Bank. Appreciation to the post office and all who have donated to the food bank. Those of us who assist with the Ministerial Food Bank donate our time and are not reimbursed for any expenses. The Ministerial Food Bank is open each Tuesday at 1:00. We have plenty of food. If you are in need, come and see us.

Trash Talk

by: Mr. Recycle Bin & Ms. Pick-Up Litterbug

Howdy Folks! May is progressing quickly as college graduations have begun and approaching rapidly on the horizon are high school, middle school and kindergarten commencements! We send our sincerest best wishes to each and every graduate as they embark on yet another chapter in what we pray is a long, successful and rewarding life of service! May the life of Jesus be your ‘forever guiding light’!

We’ve had a couple of calls recently regarding the Division of Waste Management’s collection of waste tires for Bracken County. If all components continue to operate in unison, the Buffalo Trace ADD should host a Tire Collection Event next year. This collection of used tires was formerly known as a Tire Amnesty, but to keep everyone confused, the name was changed! Other than the name, all rules and regulations remain the same! You can save your unwanted tires until next year, BUT they must be kept in a barn, shed, or at the very minimum, covered completely with a tarpaulin if stored outdoors! Tires left out in the open accumulate water and as the temperatures continue to climb, these pools of water become luxury accommodations for mosquitoes! Besides being annoying, mosquito bites can be very dangerous as these insects can transmit malaria which is caused by a parasite living in the mosquito’s body. In 1999 the United States witnessed its first

cases of West Nile virus with an epidemic in New York. Mosquito bites are harmful to pets as well as humans because man’s best friend can be infected with the canine heartworm from a mosquito carrying this parasite.

No one and no one’s pets need to be exposed to mosquitoes around the home! Any standing, stagnant water needs to be eliminated and that means keeping those used tires in an enclosed area or making sure they are completely covered if stored outdoors! Kentuckians generate around five million tires a year and the Tire Collection Events conducted on a three-year rotation throughout the state helps to minimize the negative effect of waste tires and encourages their recycling. While Crumb Rubber Grants are no longer allowed for playgrounds, other projects utilizing waste tires are landscaping, walking trails and pour-in-place surfacing grants. In 1998 the Waste Tire Trust Fund was established by the Kentucky General Assembly and this fund receives a \$1 fee from each retail sale of a new tire in the state so the new tires that you purchase and the used tires you take to the Tire Collection Event supports a wide range of projects! Your cooperation positively impacts today and tomorrow when you routinely RECYCLE, REUSE and REDUCE to keep God’s earth clean, green and beautiful! Be seen’ you
— Bin & Bug.

The April 3rd Tornado left our farm on Dutch Ridge Road with some significant damage including the total loss of a greenhouse full of plants and several downed barns, with much of the debris being tossed into Levi’s Lake.

To each of you who helped move and save our trays of plants that night, Thank you.

To those who helped with the exhausting work of cleaning the barns from the land and especially out of the lake, we are extremely grateful.

When the winds finally calmed down on Sunday morning at 6am so we could attempt to replace the greenhouse top, it was amazing to watch the trucks pull in and the number of family, friends, and neighbors who showed up to help.

The Appelman family would like to thank each and everyone who were here. We pray God will bless all of you abundantly.

Calibration Charts and Hay Moisture Tester Available

By David Appelman,
CEA for Ag & Nat. Res.

The Bracken County Extension Service has a new Moisture meter that is capable of measuring high moisture hay for making round bale silage. If you want a demonstration of this new tool, contact me at the office and I will bring it out to your farm to test your hay to see if it is ready to bale.

I also have copies of a calibration chart to be used on seed drills. The manufactures chart on drills is only a starting point and calibration must be done to make sure the desired amount of seed is planted. I have ten copies of the chart that is self-adhering and can be placed right on your drill. They will be available on a first come basis.

For more information on these or other programs, please call the office or e-mail me at dappelma@uky.edu.

“Rock Around The Clock” Comes To Bracken County

Get out your Bobbie Socks, Poodle Skirts, and Blue Suede Shoes as **“Rock Around the Clock, A Rock n Roll Review”** debuts on Friday, June 1st at The Chapel by the River in Augusta.

This monthly family friendly live show, scheduled to run from June to November, features the great oldies Rock n Roll hits of the Fabulous 1950’s and early 60’s! Songs made famous by Elvis Presley, Buddy Holly, Roy Orbison, The Coasters, The Angels, and many more! The cast of Rock Around The Clock showcases the talents of Sam Huff, Mikki Saltee, Eddie Lee Groves, Jeff Myers, Bob Snapp, Greg Whiteman, and Geno Manley, pictured above.

“Rock Around The Clock” states Eddie Groves, “is going to be

approximately 90 minutes of music and fun!” “I had the opportunity to have performed in the Opry By The River last year. It was a great experience for me, and, when Brandi Courtney and Pat Feagan decided to take some time off to pursue other musical interests, I started thinking about putting a show together to replace The Opry By The River. I knew, without the incredible talents of Brandi and Pat, that doing an Opry type Country Music show would be out. I had always loved the great oldies Rock N Roll songs from the 1950’s, and, being that I had been a huge fan as a kid of the TV series Happy Days, it seemed natural to do a Rock N Roll Oldies Review Show.”

“Rock Around The Clock” will take place in the Chapel by the River

at 112 Parkview Street in Augusta, the same building that once served as home for Opry By The River. “The acoustics in that little Chapel are wonderful, and with it’s limited seating of around 100, it makes great intimate setting to see a show”, according to Groves.

The debut show is scheduled for Friday, June 1st. Advance Tickets are on sale for \$15 and can be purchased by calling (843) 503-0439. Doors open at 7:15 p.m. and show time is 8 p.m. -- **“ROCK AROUND THE CLOCK”** is sure to be one entertaining show!! -- Be sure to visit and hit the LIKE button on Rock Around The Clock’s Facebook page for future show dates! Other shows are planned for July 15th, August 3rd, August 31st, October 5th, & November 2nd.

Cordle leads the way for AHS Track & Field at Buffalo Trace Meet

Tuesday, May 1, the Augusta track and field team competed in the Buffalo Trace Conference Championship at Fleming County, a conference that include Augusta, Bracken County, Fleming County, Lewis County, and Mason County.

Stephen Cordle was the highest finisher for the Panthers, finishing runner-up in the shot put, throwing 35 feet, 6.75 inches. Also throwing the shot put was John Paul Cordle, setting a personal best 23 feet 9.5 inches. In other field events, Seth Fouts jumped 12 feet 10.75 inches in the long jump, while Madison Kelsch jumped a personal best 11 feet 4.5 inches.

"Stephen threw a bunch pitches in a baseball game the night before and didn't have the best throws, but was still good enough to get in the top two," Coach Tim Litteral said. "We hope his arm will be a little fresher heading into Region."

In the sprinting events, Jushod Commodore had two fourth place finishes. He ran the 100M dash in 12.14 and the 200M dash in 25.14 seconds. Both times were personal bests. Running

Maysville Academy offers schooling choices to parents

The Maysville Academy was established in 2012 in downtown Maysville to provide rigorous academic instruction to children ages 5 through 17, Kindergarten through 12th Grade. Now in its 6th year, the primary goal of the school is to offer additional school choice to parents living in this region who place a high value on quality education emphasizing science, technology, music, arts and literature. By being independent of government-directed mandates and lesson plans, the Maysville Academy has the freedom to promote traditional values, critical and creative thinking, good manners and citizenship. The tuition-based private school is supported in large part by Carlson Software, which contributes to the school programs in the area of math, science and engineering.

The school campus on Third Street occupies two nearly identical "ante-bellum" buildings, both from 1838, with extensive backyards including a formal courtyard. The very environment is "old world" and enriching, elevating. The neighboring First Christian Church of Maysville offers the school use of its indoor basketball court. The Maysville Academy believes strongly in the value both of disciplined education as well as fresh air and recess time, so outdoor breaks are frequent and encouraged. The Saint Patrick School has very generously offered the students of Maysville Academy permission to participate on their sports teams, which

greatly expands physical education opportunities.

Carlson Software recognizes that education in all regions of United States is under extreme pressure to conform to a progressive agenda directed from the top down. Carlson Software has achieved its success here in Maysville by embracing capitalism and competition, by working hard and providing service, building the business over time based on old-fashioned values of persistence and faith. These values, now under assault, actually work and are the surest pathway to success. Carlson Software wishes to instill these values in the students of Maysville Academy.

Carlson believes in education and hires professionals with strong academic records primarily in the sciences. Many Carlson employees are graduates of the prestigious Gatton Academy in Bowling Green. The Maysville Academy can be considered a training ground for young people considering applying to Gatton Academy or the Craft Academy in Morehead, both emphasizing STEM (science, technology, engineering, math) in their programs. It is hoped that some of our students might even consider careers at Carlson Software sometime in their future.

With steady growth in students and teachers, Carlson plans to take Maysville Academy to the next level. Help us grow and continue to provide a unique and needed educational service to our community. Contact the Maysville Academy at 606-703-6632.

Federal student loans offer deferments

If you're having trouble repaying your federal student loans, you may be able to apply for a deferment, according to the Kentucky Higher Education Assistance Authority (KHEAA).

A deferment lets you postpone paying your loans if you meet certain guidelines. You may qualify for a deferment if you are:

- Enrolled in college at least half time.
- In a rehabilitation training program.
- Unemployed or can't find a full-time job.
- Having economic hardship.
- On active duty service in the military.

If you've defaulted on your federal loans, you may not be able to get a deferment. Talk with the agency that services your loans to see how you can get out of default.

If you qualify for a deferment, you will have to submit an application. You must make your monthly payments until the agency tells you that your loans are in deferment.

For more information about Kentucky scholarships and grants, visit www.kheaa.com; write KHEAA, P.O. Box 798, Frankfort, KY 40602; or call 800-928-8926, ext. 6-7214.

KY's tobacco settlement money is in – with more coming

Kentucky's latest share of a multi-billion-dollar national tobacco settlement agreement is \$102 million with more money on the way, says the Governor's Office of Agricultural Policy.

GOAP Executive Director Warren Beeler told the General Assembly's Tobacco Settlement Agreement Fund Oversight Committee that the \$102 million, received last month, will provide around \$28.4 million in 2018 for state and county agricultural projects funded through the Kentucky Agricultural Development Fund, or KADF. And more funds are expected, thanks to a reformulation of settlement funds by the tobacco companies making the payments.

The reformulation—based on actions taken by the companies to ensure compliance with the two-decades old settlement agreement entered into between 46 states, including Kentucky, and the nation's largest cigarette manufacturers—will boost the \$28.4 million to around \$40 million over the biennium, said Beeler. For counties, that means a 40 percent increase in available funds.

"So you can tell your counties, the county money's going up 40 percent," he told lawmakers

on the committee.

The recently-passed state budget will divert around \$13 million in 2019-2020 for agricultural improvements to the state fairgrounds in Louisville, leaving less money for other projects and programs. While budgeting funds for state fairground improvements means less money for other agricultural projects and programs funded with tobacco settlement dollars, Beeler said he considers the improvements "an investment in agriculture."

The budget provision will have little impact otherwise, Beeler said. Even with \$7 million gone in 2019, he said tobacco dollars for state projects funded through the KADF will be within \$100,000 of this year's total.

"So we came through it as good as anybody," said Beeler.

Overall, Beeler said Kentucky has grown its farm gate cash receipts – or sales from Kentucky agricultural operations – by around \$2 billion, year after year, with \$560 million in tobacco settlement money it has spent on agriculture to date.

"That money's worked like a dream. If you could go with me, you'd see what I see. It's been absolutely terrific," he said.

The time is almost upon us when residents of Bracken County enter their votes for our local government.

I, Carl Allen Jr., am asking for your vote as Magistrate in the Foster precinct. A position I have had the honor of holding for the past 12 years.

I take this position very seriously. Therefore, annually, I complete the maximum amount of elective training offered by the state, so I may stay current with events and issues that affect you.

22 years ago I began an auto repair business on Western Hills Road. Thankfully this allows me the flexibility to perform both jobs and to be easily accessible to residents and their concerns.

Although I am only one of the eight elected Magistrates, I promise to continue to work hard and support the residents of Foster. United with the

Bracken agencies hold Bus Hostage Scenario Drill

It starts out as a normal day, the kids load the bus for school, an athletic event, a club function, numerous events that are played out everyday in every city, in every state across the country. Suddenly a 911 call goes out about a hostage situation on a school bus. Surely dispatch didn't say that, not in Bracken County, not one of our school buses! But that was the case Saturday, May 12th in Milford as several county and surrounding county agencies reacted to a "mock" school bus hostage situation on Jesse Moore Road in Milford.

Twenty minutes after the initial call came in, law enforcement arrived on the scene as Sheriff Niemeier block the buses ability to leave the area and was soon joined by Deputy Boody. They made contact with the armed hostage taker who demanded they leave, and all he wanted was to leave with his son. After what seemed like hours but was actually a short time, a commotion arouse from the bus resulting in the armed man shooting his son. Niemeier and Boody were then able to draw him off the bus, wounding him as he tried firing at them. Thankfully, no one else in the scenario was injured and the other students, teacher and driver were removed safely from the bus.

Once the armed man was secured, EMS arrived with an ambulance, attended to the wounded student and loaded him an ambulance, as shown above. Once he was taken care of, attention was directed to the shooter, who was likewise attended to and loaded into the ambulance. Both the shooter and his son where then transferred to the Milford Ball Field where a helicopter waited to transport them to the hospital, as shown below.

This exercise was held to help law enforcement, emergency medical services, fire departments and emergency management from not only Bracken County but surrounding counties a real time demonstration of the time it takes to get to the farthest points in the county and the problems that can and do arise when responding to emergency situations with the small number of deputies and other law enforcement personnel in Bracken and surrounding counties.

The exercise helped show where the agencies were lacking as well as their strengths. These strengths and weaknesses will help with how they prepare for disasters in the future. Everyone is appreciated for their participation in the drill.

Carpenter Bees Becoming Active

Carpenter bees chew 1/2-inch diameter tunnels that follow the wood's grain. Females may use their strong mandibles to extend galleries by more than 1/2-inch per day. After construction, females spend much of May gathering pollen and nectar that is fashioned into bean-sized portions of bee bread. The female will deposit an egg on each "loaf" and separate them into cells.

Females are not aggressive but can sting if antagonized. Males, recognizable by the yellow spot on their faces, hang out near nesting sites and may investigate intruders who enter "their" space. While intimidating, males cannot sting.

Tunneling in soft wood is the main damage inflicted by carpenter bees. Over time, increasingly larger carpenter bee populations can weaken wood. In addition, the ac-

cumulating waste from the bees stain surfaces directly below nest openings.

Damage becomes significantly worse if woodpeckers discover carpenter bee galleries. These birds will destroy wood to reach the succulent bee larvae just below the surface.

Carpenter bee control is not easy, so prevention is the best long-term strategy.

- General maintenance of wood helps because carpenter bees exploit rough areas on wood surfaces to begin a nest. Filling cracks and crevices, sanding, and painting or varnishing exposed wood will make it less attractive.

- When practical, cover softwoods with flashing or screen to prevent injury to areas that are chronically attacked.

- Close barn and shed doors while bees are establishing new galleries; this helps reduce infestations in outbuildings.

There are some insecticide options, but accessibility and dimensions of infested surfaces can make treatment impractical or limit success.

The use of dust formulations of insecticides applied directly into tunnel openings has been the favored option. In this approach, bees are exposed to the dust as they enter and leave. Ultimately, they should receive a lethal dose. Example dusts include boric acid dust or products such as Bonide Termite & Carpenter Ant Dust (deltamethrin). Diatomaceous earth and combinations of dusts with desiccants are also possibilities.

Insecticide sprays can be applied into tunnels, but bees may not pick-up the dried residue as rapidly as they would with dusts. Insecticide applications to wood may provide some preventive effect, but bees are not ingesting the wood, only gouging it away; they can work quickly though the treated surface. Example sprays include Bayer Home Pest Control Indoor & Outdoor Insect Killer (cyfluthrin), Bonide Total Pest Control Outdoor Formula (permethrin), Bonide Termite & Carpenter Ant Killer Ready to Use (deltamethrin), and Spectracide Bug Stop (l-cyhalothrin). After treatment, tunnel entries should be filled and sealed so they are not attractive to bees the following season.

CALL FOR THE LATEST UPDATED OPERATING STATUS!

KPA looking for relatives of organization's founders

In January, 2019, the Kentucky Press Association will be celebrating its 150th Anniversary. KPA is the nation's 10th oldest state press association and represents all newspapers published in the Commonwealth.

On Wednesday, January 13, 1869, a group of newspaper editors gathered in downtown Frankfort to organize a society for newspapers.

According to the 'Early History of the Kentucky Press Association,' by Dr. Perry J. Ashley, "Newspapers began to recognize common bonds, and there emerged a belief that Kentucky editors should take a leading role in state's consolidation by coming together themselves."

While the association does not have a list of who attended the organizational meeting, it does have a list of officers elected to organize the association and to serve as officers

the following year.

Those men and their newspaper affiliation were George D. Prentice, The Courier-Journal; A.B. Hodges, Frankfort Commonwealth; W.H. Perrin, Louisville Democrat; J.R. Marrs, Danville Advocate; S.I.M. Majors, Frankfort Yeoman; Thomas S. Pettit, Owensboro Monitor; J.G. Craddock, Paris True Kentuckian; J. Stoddard Johnson, Frankfort Yeoman; H.T. Stanton, Maysville Bulletin.

The Kentucky Press Association is searching for descendants of these individuals who helped organize the association. If you are a descendant of one of the individuals named, or know a descendant of these gentlemen, please contact David T. Thompson, Kentucky Press Association, 101 Consumer Lane, Frankfort, KY 40601, or by phone at (502) 223-8821 or by email at dthompson@kypress.com.

ROB SCHWEITZER
JUDGE EXECUTIVE

Back in November I announced my candidacy for Bracken County Judge Executive and since then I have had the opportunity to speak to many of you about my education, work experience, community advocacy and ideas. Listening to you share your priorities and concerns has helped me shape my plans and vision for the Judge Executive position.

- I believe most importantly that the role of Judge Executive should be to advocate for the people of Bracken County. I promise to listen and to always be your voice on local and state issues. I will ensure that the budget and tax payer's funds are being used in the most efficient manner, while focusing on infrastructure, public safety, jobs and our public schools.
- I believe the Judge Executive should be a vital and active communication link between the people and the county. I promise transparency with all county business and to make information more easily accessible by maintaining a better online presence through social media. I plan to hold some fiscal court meetings in the evenings, so more community members can attend and be involved. Meeting minutes will be published quickly.
- I believe the Judge Executive should be a valued partner with the city mayors and city councils. I promise to be actively involved throughout our county. I will work with city governments to create youth development programs and activities and expand our Senior Citizen programs. I believe that the foundation of any thriving county should include education, workforce development, recreation and the arts. If we want to attract employers to this region we must work to enhance and expand these areas to make Bracken County a better place to live.

Thank you for inviting me into your homes and allowing me to attend dozens of community events. I have thoroughly enjoyed getting to meet the citizens of Bracken County. Your support has reaffirmed my commitment to creating a thriving county for our future. I humbly ask for your vote on May 22 for Bracken County Judge Executive.
